# WELCOME BACK!

The postseason is here and so is your ultimate companion to navigating the wild, unpredictable ride that is the Regional weekend in College Baseball.

Whether you've been with us since Opening Day or you're just tuning in now for the madness of the postseason, welcome to College Baseball Insiders. This guide marks our fourth annual Regional Edition, built to deliver sharp insights, advanced analytics, and the betting angles you won't find anywhere else.

For the newcomers: I'm Matt Grissom, co-founder of College Baseball Insiders, joined by Quentin Mills, Nick Hathcoat, and Todd "Smitty" Smith – the voices behind our weekly live broadcasts, best bets, and statistical breakdowns that powered us to a +67 unit profit through the regular season. And none of it would be possible without the beautiful mind behind the curtain, Nick Dimmitt, whose data and website design continue to level up everything we do at CollegeBaseballInsiders.com.

In this guide, we'll lay out the roadmap that got us here and dive headfirst into every regional – highlighting everything from the odds, win probabilities, and all of the advanced metrics that separate the Omaha contenders from the two-and-barbecue pretenders. From proven powerhouses to Cinderella hopefuls, we give you the tools to make sharper plays and more informed wagers.

Our mission is simple: blend our passion for the game with an edge for betting. No fluff, no filler; Just the stats, context, and commentary you need to enjoy the greatest show on dirt.

Let the madness begin. The road to Omaha starts now.

# NOT ALL SEEDS ARE CREATED EQUAL | WITH CHINOOK SEEDERY

We know that when it comes to the postseason in College Baseball, it feels like we typically see the top seeds rise to the occasion and find their way to Omaha, but that's not always the case. Over the past 25 years, here's a breakdown of what Omaha has looked like from a seeds perspective.

| YEAR                                                            | CHAMPION    | RUNNER-UP    | TEAM THREE  | TEAM FOUR    | TEAM FIVE    | TEAM SIX     | TEAM SEVEN   | TEAM EIGHT    |

Since 2000, there have been 12 non-national seeds win the College World Series. Since the tournament expanded to 16 seeds in 2018, there has only been one team win the CWS as a non-national seed (Ole Miss in 2022). Coincidence or not, the most common seeds to find their way into the Championship Final are #2, #3, and #5, all winning three times each. But as history has shown us, it's not always the top seeds left standing. In fact, history has shown us that there's a good probability of those non-national seeded teams not only making a run to Omaha, but winning the whole thing.
